

New! 12" 3-Jet Stainless-Steel Double Bend Floor Wand

The Butler Corporation is pleased to announce our new 12" 3-Jet Double Bend Floor Wand. This 12" wand is designed and constructed to the same exact specifications as our 10", 14" and 18" wands. Use on residential and commercial carpet, tile and all hard surface flooring.

The 3-Jets are precision mounted on a stainless-steel machined manifold 1-7/8" from floor surface (hot water and pressure are concentrated at optimum height and position for superior cleaning results). It has the same slanted head height of 3 5/8" to clean under toe kicks and extend easily under furniture. Includes a multi-position D-handle, spray shield (to maximize heat concentration), a stainless steel precision valve assembly, remote water filter located at inlet of valve (for ease of periodic cleaning), 1/8" stainless steel high-pressure tubing, a padded wand tube cuff (for a sure, comfortable grip) and a Ultra-Smooth Wand Glide to maneuver exceptionally easy over carpet, tile and all hard surface flooring.

Our new wand is now available at a minimal upgrade cost when purchasing a new or pre-owned Butler System or it can be purchased separately.
